KANGAROO LITE
DATA MANAGEMENT SOLUTION

Compact Long-Term Data Archiving Solution

An all-in-one data archiving solution harnessing the power of LTO Tape Technology along with FUJIFILM Object Archive, our open format software. Ideal for organisations requiring storage for capacities of 100TB and above. With a sleek desktop design, this plug and play solution offers secure data archiving for the long-term. Your data will remain future-proof and easily accessible for years to come.

The key benefits are:

Secure

Air-Gap protection against cyber-attacks and ransomware with an archive life of over thirty years.

Compact

An ergonomic, desktop sized solution that enables you to archive data with limited floorspace.

Open

FUJIFILM Object Archive software is an open format with no vendor lock in, allowing you to keep control of your data.

Plug and Play

Developed with ease of use and practicality in mind.
